

**From the admin:
An explanation of where I
have been in the past 2 months
and what to expect from this
site**

Editorial for **December 2020, January and February 2021**
www.getyouranswersonline.com

Many of you that frequent this site are probably wondering what happened to the site. In this posting, I will explain what happened to me and why I haven't posted anything in the past 2 months.

The short answer is that I have been in the hospital recovering from CHF (Chronic Heart Failure) and renal failure. The story behind this is long, but I will shorten things for you so you will know.

In October, I caught a cold with the normal sniffles and such (no, it was NOT Covid). That cold progressed into a viral pneumonia, and the virus from the pneumonia settled into my heart, causing me to have difficulty breathing. I was admitted into the hospital on December 22nd, and yes, I spent Christmas and New years in the hospital. I was there for 11 days.

During that time, I found out from the cardiologist that there was significant damage to my heart, and I only had 25% pumping capacity, which affected by kidneys, which now have 10% function. I still can pee and defecate without issue, but the swarm of doctors around me were talking about removing my kidneys and putting me on dialysis.

Of course I said not NO, but HELL NO to that.

It was also found that I had tumors on my kidneys and cancerous tumors on my pancreas. I went through two biopsies where I was put under with anesthesia. I do not remember anything, but my wife was my advocate and she tells me that they were going to give me NARCAN to wake me up after the first biopsy. They sent a big burly nurse to try to control me if they did, as NARCAN ingestion is unpredictable.

Now, before I got pneumonia, I was a robust 308 lbs and I was built like a linebacker who could bench press 400 lbs without any issue. When the hospital was done with me, I lost 50 lbs of water weight and lost all of my muscle tone. They also put me on 15 medications that I have to take daily.

Another catalyst of the hospitalization was my blood pressure which I have been battling for years. I got REALLY pissed off when I confronted the doctors as to why I am no better off with my blood pressure after taking the pills for 24

years. I decided to stop taking the pills previously because I was gaining weight (I ballooned up to 330 lbs). I slimmed down to 300 lbs (and I am 6' 2" tall) and that helped as I played on an international softball team where we played in the United States, Canada, Scotland, England and the Czech Republic. I have always been athletic and in shape, and getting sick like this was confusing.

How in the HELL did I end up in the hospital?

How does pneumonia put me into the hospital when I was lifting buildings prior to getting sick?

As you know with this site, I have been sharing how you can use the courts of the Universe to kick the devil in his big fat red behind. I showed you that by filing complaints and petitions, you force the devil to go on trial and hold him accountable for what he does.

Well, I practice what I preach – and I have MILLIONS of complaints against the devil that he has not fulfilled. The Lord Jesus Christ has granted me MILLIONS of decrees that is forcing the devil to PAY UP for what he has done, and every time he does something to me, I beat him over the head with all of the outstanding complaints and petitions that he has not answered. This works because not only do I get to say things that the devil cannot counter, he is bludgeoned every time he decided to mess with me.

So what does the devil do?

The devil tried to kill me.

Although it is not unusual for viruses to settle into a person's heart, I think it IS unusual a for perfectly healthy person who works out and takes care of his body to be cut down into a person with cancer taking 15 pills a day, reducing him to a drooling idiot sleeping 17 hours in a day.

I told Jesus just kill me, as I was not going to take all of these pills and drool away the rest of my life. Jesus' Father stepped in and informed me that HE put me in the hospital because He saw the damage done to my heart. He told me

later on that if He didn't put me in the hospital, I would have died and He did NOT want me to die that way.

Yes, the Lord of Hosts told me that He did NOT want me to die in that manner.

You do not have to believe what I am telling you, but this is the case. So I asked the Lord WHY?

What is going on?

What the Firetruck?

The Lord of Hosts was telling me that He wanted me to be available for the great harvest and he quoted this scripture:

Matthew 9:37 - He said to his disciples, "The harvest is great, but the workers are few.

Luke 10:2 - These were his instructions to them: "The harvest is great, but the workers are few. So pray to the Lord who is in charge of the harvest; ask him to send more workers into his fields.

This is the ONLY reason why I am still alive today.

I am now on the long road to recovery, and the Lord of Hosts is going to rebuild my heart so I can fulfill my role in the harvest. During my time of recuperation, when I am not drooling in a corner somewhere, I have been given the assignment of showing Jesus for REAL and now what you get in the churches today. For example:

- Did you know that Jesus authorizes every breath you take?
- Did you know that Jesus builds armour that is tailor made for YOU that He issues PERSONALLY?
- Did you know that you cannot get into the Kingdom of God if you are NOT a disciple of Christ?

The Easy Believers and the Once Saved, Always doctrines are going to get people to waste their time on earth and they are NOT going to make it into the Kingdom of God. I have some e-mails from a person who tried to get me to believe that Once Saved, Always Saved is valid, and I am going to show what is being taught in church and how these doctrines discount the importance of Jesus as an administrator and a Judge.

I am going to start posting more of these articles starting in March. I need time to recuperate and get stronger, since my heart is so damaged. The devil used that virus to shred my heart, but the Lord of Hosts stopped him from killing me.

You see, I had problems with hypertension (high blood pressure) for YEARS and I could never get it under control without being a pill-popping Guinea pig. So, I said – screw it – I don't want to live like this popping pills, so I asked the Lord to heal my hypertension.

The Lord said NO.

However, the Lord said I will make you a deal – you eat better and exercise, I'll take care of your blood pressure.

The Lord of Hosts offered me a covenant which I accepted. For 5 whole years, whenever I went to the doctor, they would take my blood pressure and it would read high. Knowing I had a covenant with the Lord of Hosts, I didn't worry about my blood pressure – I had no issues with my health.

So, when I was admitted into the hospital, I thought it was because of my blood pressure issues. I asked out loud – what happened to our covenant? I kept my end, so what is this?

WTF?

The Lord put me into the hospital because the virus introduced into my body was tearing up my heart. Our covenant did NOT change. This was revealed to me after I got out of the hospital.

SO, there you have it. If the devil is not actively trying to kill you, then you are no threat to him. Jesus, along with His father, saved by narrow behind, as they have plans for me still. I have to endure through a lot of BS and aggravation because these doctors insist on giving me drugs that turn me into a drooling idiot, telling me that this is good for me, but the following scripture comes to mind:

Mark 13:13 - And ye shall be hated of all men for my name's sake: but he that shall endure unto the end, the same shall be saved.

And this one:

2 Timothy 4:5 - But watch thou in all things, endure afflictions, do the work of an evangelist, make full proof of thy ministry.

I had this conversation with my wife – I asked her “how is taking 15 pills daily, being dizzy most of the time, living? I am sleeping 17 hours per day and I need you to wipe my nasty behind and help me take a shower! I can barely walk because I am so dizzy!!”

(I am very blunt with my wife.)

She is slowly coming around, as she had an experience with a doctor who wanted me to get a blood transfusion at a hospital because my iron level were low (the threshold was 7, and my levels were at 6.8). When I heard this, I said HELLO NO I am not getting a transfusion. What I did get was a diet with more red meat like burgers and steaks. I can DEFINITELY consume more steaks and that will push my iron levels over the threshold. This doctor labeled me as ‘stubborn’ because I would not take what she wanted me to do at face value.

You are DAMNED RIGHT I am stubborn.

Where are the alternatives? Why would I incur the expense of an emergency room visit when for less money I can eat steak and red meat to achieve the same goal?

WTF is wrong with these "medical professionals"?

When I am judged, Jesus is going to judge me on how well I took care of the body he has given me to live in. I am not going to let some thick-headed doctor jeopardize my salvation because they wanted me to do something just because "they said so".

Many of the doctors that came to see me in the hospital wanted me to sign papers for surgery to remove my kidneys and pancreas, telling me I had terminal cancer because they found tumors on my organs, charging me \$210 per visit and they saw me in the hospital less than 15 minutes.

WTF?

The tumors they found were slow growing, and it has taken DECADES for those tumors to grow. Also, before those tumors become a problem, it will take DECADES before that happens (they neglected to mention this and did so grudgingly because I wanted to know why surgery was necessary). These ghouls were quick to try to convince me I needed surgery NOW but they neglected to deal with my heart, which is the organ that needs the most attention.

Could there be a financial impetus for the surgery?

The takeaway is this – if you are going to the hospital for any reason, make sure you have a family member as an advocate who will be looking out for your well-being while you are vulnerable. You also need Jesus to be your advocate so the devil cannot do what he wants to you when you are vulnerable.

So, there you have it – that is what is going on. I also take as a badge of honor that I pissed off the devil so much he tried to kill me. It was my obedience to the Lord Jesus Christ that is saving my life right now. I am not out of the woods yet, and it may take a year for my complete rehabilitation, but how exciting is it that my life is being extended for the harvest?

As always, don't take my word for anything. Go DIRECTLY to Jesus and get your confirmation from Him and then do as Jesus tells you. **It is YOUR salvation that is on the line, and it is up to YOU to get as close to Jesus as you can and stay close to Him.** I am doing what the Lord has asked me to do - Proclaim the Gospel and point people to Jesus. What you do after that is your

business. Get with the Lord Jesus Christ directly, Christian, and get those questions answered as soon as you can. Get more tips on how to talk to the Lord directly [here](#).
